

# St. Jude Catholic School electronic reader Registration and Agreement

(This form only needs to be submitted one time per device/student. Submit only if your device has not been previously registered.)

We, the undersigned student and parent, agree to the following:

1. This form requests permission to use a personal e-reader device—that is dedicated to the primary task of making electronic readings available (such as *basic* Kindle and Nook models)— at St. Jude Catholic School. This excludes devices that would otherwise be referred to as tablets (iPads/Kindle Fire, etc.) or smartphones (including iPods) that have multiple functions and capabilities such as gaming, cameras, texting, and web browsing. The school administration will have final say on approved devices. Use of any device that does not comply with the terms described here may result in the withdrawal of this agreement and return of the device to the parent.
2. As an electronic device, use of this device will comply with the Acceptable Use of Technology Agreement from the *Family Handbook*.
3. The student will allow the supervising teacher or administrator to inspect the device upon request, especially when presenting for approval with this form.
4. The e-reader, if approved, will be used in the same contexts or manner as a self-selected book—in other words—for personal reading during curricular time when allowed by a teacher. Its use may be restricted during testing periods and especially during state standardized tests.
5. The school will make reasonable attempts to assist with the location of misplaced or missing devices. However, St. Jude School and Church will bear no liability for lost, stolen, or damaged e-reader devices. It is up to the student to keep the device on his/her person when in use and securely stored inside his or her backpack when not in use. We strongly recommend that the device be taken home daily. Recharging and reformatting/reloading of the device should also take place at home using the family's personal computer and/or home network.
